CYBER SECURITY, JOBS AND SKILLS- HAVE YOU GOT WHAT IS NEEDED?

Guest speaker:
Elizabeth Sheldon

This talk will focus on the Cybersecurity Industry in the UK and why you should consider it a career worth pursuing. The speaker will take a look at the current state of the industry in the UK and consider where it is going, and the breadth of jobs available. She will also consider who should select this as their career choice and what skills are needed to succeed!

Evidence Talks is one of the UK's leading authorities on forensic computing, servicing clients in the military, law enforcement, intelligence, corporate and legal communities across the world.

At the forefront of technical innovation in digital forensics and intelligence gathering, Evidence Talks has developed several unique proprietary products at its Milton Keynes Research and Development facility, including the two award-winning technologies, SPEKTOR Forensic Intelligence and Remote Forensics.

ABOUT THE SPEAKER

Elizabeth joined ETL in 2002 with responsibility for financial and business strategy, and has now overall responsibility for business leadership and strategy. Elizabeth is currently vetted to UK SC government clearance.
